

CLAUDIO LUCAFERRI

Senior Software Specialist – Team Leader

✉ claudio@claudiolucaferri.it 🌐 <http://www.claudiolucaferri.it>

📍 Rome, Italy ☎ +393471285712

PROFILE

- Articulated technical expertise in ICT matured from 1993 through the management of technical aspects and technology, with particular attention to highly innovative contexts. I have developed specific expertise in software development. Versatility is one of my strengths.

EXPERIENCE

Senior Software Specialist Senior free-lance Team leader

📅 January 2006 - today

- Developer in C#, VB.NET, C/C++, PHP, Javascript, Java, Objective-C, Swift, VB6, VBA, HTML5/Javascript/CSS, ASP.NET, MySQL, MSSQL, SQLite, Linq and teaching activity about MySQL/MariaDB;
- Developer of a VOIP system (with custom voice engine) with C#/C++ on Windows XP Embedded SP1 for FFSS and MetroRoma;
- Developer of a custom Gis system (Terrapack) on web engine HTML5/Javascript with WMS Server;
- Professional support in NATO interoperability exercise CWID/CWIX from 2008 to 2014 in Norway and Poland as a "Specialist in software development";
- Native apps with html5 for Android/iOS/WinPhone;
- Back-end Windows Service for traceability in industrial context with exchange data with Sap using SapRFC and web services (SOAP).
- Development in C++ 11 (with RAI1 and move semantics) of a software EDR (Endpoint Detection Response) for data monitoring at user and kernel level on Windows with communication with Firewall and Lua engine.

Analyst developer senior – Team leader

K+ S.r.l.

📅 April 2003 - December 2005

- Server software for job printing;
- Software for Windows CE with TCP/IP communications;
- Encoding/streaming software in real time of phones audio for intercept system.

Analyst developer senior – Team leader - Project manager

KS S.p.A.

📅 March 2002 – March 2003

- New web site ABI Lab;
- Bridge JNI (Java Native Interface) from java to C.

Analyst developer senior – Team leader - PM

Agorà Telematica S.p.A.

📅 April 2000 / February 2002

- Teaching for versioning system in software house;
- Tutor for developers juniors;
- Developer/Project-Leader in development teams of the following web projects: colosseoilluminalavita.it, archiworld.it, toyota.it, nessunotocchicaino.it, graficheponticelli.it, rigore.it, guidagenitori.it, energywatch.it, dirkvoegel.com, farmindustria.it.

Analyst developer - Specialista Win32 - Tutor ITP Elettronica S.r.l.

📅 May 1997 / April 2000

- Strong experience using Win32Api with owner drawing and hooking code and CGI/C programming;
- Development of DCOM components;
- Development OCX component for images scanning using TWAIN interface;
- Development ANSI C library multiplatform WINDOWS – UNIX
- Role in Development Program SkyWork "to control the trajectory of the Sky ground missile of Italian Air Force through 4 cameras IR IRRIS-256ST, the program has been developed on the Sun UNIX machines with Solaris operating system and the development environment was Sun WorkShop 4.0.
- Development in 3D OpenGL multiplatform Windows–Unix.

Multimedia analyst developer

Infobyte S.p.A.

📅 April 1995 / May 1997

- Strong experience using Win32Api GDI and Socket;
- Role in Development Program "Roma nel Cinema";
- Main Programmer in software "Pianeta ENEL";
- Development multithreading in Windows with Visual C++.

Operatore specializzato su Personal Computers

S.I.M.E.S. 91 s.a.s.

📅 December 1993 / December 1994

- Specialized operator at the firm "Romana di Macinazione SpA" based systems Telemecanique interfaced to Monitor 77.

PHILOSOPHY OF LIFE

🗣 "what you know isn't important, it's what you can do that matters".

STRENGTHS

Determination, flexibility and heterogeneous know-how on all the main technologies and operational contexts

LANGUAGES

- 🗣 Italian Native
- 🗣 English Reading and writing good. Spoken and understood sufficient.

QUALIFICATIONS

- 🎓 High school ITC
- 🎓 Microsoft **Certified** Professional 🏆
- 🎓 Microsoft Specialist HTML5 Javascript CSS3 **(Certified)** 🏆
- 🎓 Microsoft Certified Technology Specialist C#.NET Developer **(Certified)** 🏆
- 🎓 Zend Certified Engineer PHP5 **(Certified)** 🏆
- 🎓 Oracle Certified Associate MySQL 5 **(Certified)** 🏆
- 🎓 UML Foundation Training

LUCAFERRI CLAUDIO CURRICULUM VITAE

(Updated November 21st, 2019)

PROFILE

Articulated technical expertise in ICT matured from 1993 through the management of technical aspects and technology, with particular attention to highly innovative contexts. I have developed specific expertise in software development. Versatility is one of my strengths.

WORK EXPERIENCE

Date (from - to)

Firm Name

Free-lance (self employed), Team leader from January 2006 until today
Several companies: Itp Elettronica, Aster, Maptel, Sielte, Martedi5, Progesi, Abbott, Trendiweb, CFP, Contini, Amelya, Aedgency, Xento, Selex, Ro-Technology, Invisible Studio, Vitrociset, Metroroma, Cadlog, Magneti Marelli, OSRAM, B810, Gr Elettronica, Sefa Hemargroup, Italian Air Force (ReGISCC), Lince, Zeta-Distribution, PizzaCapri, Assohandicap, Sealink, Ways, Almaviva, Segula Technologies, Leonardo, Gefran, Selcom Group S.p.A., Ge.Ba., Bitron, Roj, Vimar, Tecno System, Life Elettronica, Interconsulting, Gyala.

Firm type

ICT – Software house and Software integrator

Job type

Senior freelance consultant, Team leader (self employed).

Main tasks and list of projects carried out, Chronologically

Development with C#, VB6 and C/C++ of VOIP applications (voice engine proprietary developed by myself) under Windows XP Embedded SP1 for FFSS and MetroRoma.

Development with C# of an OPC server for Ways and MetroRoma.

Development of a C/C++ solutions (VC++) to integrate a GIS engine with a web portal with implementation of an ActiveX.

Development of a map-server WMS using PHP5 with OOP, Smarty template engine, generation and validation of xml/dtd and xml/xsd stream data, UML design with Enterprise Architect, documentation

project using PHPDocumentor.

Development extensions (equivalent to the ActiveX for IE) for the Mozilla Firefox browser with libraries XPCOM.

Development of a library management task parallel in C/C++ synchronized events and thread through semaphores.

Development with C# compact framework of a program to handheld for the management of RFID tags for Abbott.

Development proxy layers and layers Java front end in the draft DVBH with RDBMS Oracle for Tim, for Trendiweb.

Analysis and ASP.NET development of a system for managing requests for intervention with automatic email sent for CFP.

Development with C/C++ component of a multi-layer graphical ActiveX for Progesi.

Development with PHP and Javascript of a website <http://www.publicity.it> with development of CMS custom with RDBMS Oracle for Martedì5.

Development with PHP of my personal site <http://www.claudiolucaferri.it> using CMS Drupal.

Development of a system memory and memory leak bug in VC++ with final report generation.

Collaboration with prof. Umberto Nanni (University of "La Sapienza" of Rome) implementation/refactoring in C/C++ algorithms for the detection of "shortest paths" using Visual C++ and SQLite.

Development parser for multiplatform wxWidgets library.

Development web application for Contini about management of wedding list with Apache, PHP, Javascript, Ajax.

Experimental development .NET 3 with Visual Studio 2008 Beta 2 for client component with SilverLight 1.1 Alpha.

Development web-gis solution with proprietary backend, using VC++, PHP5 OOP, Javascript + JSON + Ajax (Prototype + Scriptaculous), XML with XSD validation, graphic 2D development with canvas cross-browser; resolution of cross-domain problem with proxy implementation in jsp, php and aspx.

Research activity for Aedagency (based in Barcelona) for the development of a browser extension toolbar for Mozilla Firefox 2.x; using XUL / XPCOM and more precisely x-javascript and native component with Visual C++.

Development DOM parser of XML data stream with VC++.

Bug fixing of the opensource project "PHP Obfuscator" adding a new functionality for support of "\$this" operator.

Development of Drupal modules with "hook" functions version 5.7 and external modules (cron-job) using PHP+Zend framework+jQuery for Amelya (<http://www.amelya.com>).

Professional support in NATO interoperability exercise CWID2008 Norway (from June 8 to June 14) as a "Specialist in software development".

Development of software module for AVI stream creation with VC++.

Development of a parser-engine xml with validation xsd with PHP5, for Xento.

Development of software modules in cms Wordpress for the site <http://www.confimmobiliare.it> for Goodkarma.

Development with VC++ of software module for access http with Win32 Internet Api (for Kerberos and NTLM authentication) and development "win-manager" for Selex-SI for EUCCIS project.

Professional support in NATO interoperability exercise CWID2009 Norway (from June 9 to June 20) as a "Specialist in software development".

Professional support in the G8 event at L'Aquila on July 2009 as a "Specialist in software development".

Development with Visual C++ of a plug-in for Internet Explorer 6.x or higher for print jobs monitor for Performa.

Development with C#.NET and C++ of a software for user print notification for Performa.

Development with C#.NET of a VOIP application that notifies vocal pre-registered messages

Development of an Apple-Universal application "TkTrack2" for iPhone and iPad (Gps extension and SQLite support) in Objective-C / Cocoa

framework / iWebKit using XCode for Itp Elettronica (this app is developed for Italian Air Force and is not shown on App-Store).

Development of an iPhone application that permits the consultation of personal organizer data for [Amelya](#) published on App-Store (valid account required) and development of Apple Push Notification (APNs).

Porting [Amelya on Android platform](#);

Development with PHP of a software that reads data with military protocols for Italian Defence (Italian Air Force).

Development with PHP of web site <http://www.continiappia.com> with management wedding-lists and management stand-alone developed with Access / C#.

Development with PHP of military web site "Itafportal" (reserved access) for Italian Defence (Italian Airforce).

Development and integration of a e-commerce platform B2C for web site <http://www.continiappia.com> using PHP and integrated with "cartasi" service.

Development of web-app in JSP (Java) to integrate a WebGIS in a system based on WebSphere for Selex-SI.

Development of an iPad application on line journal [Freequency](#) published on App-Store and development of Apple Push Notification (APNs).

Development of web portal www.jjob.it.

Data extraction on mysql for Gambero Rosso (www.gamberorosso.it).

Development of socket server TCP in C language for Linux Centos 6 x64 for Selex-SI.

Development of a mobile app "Tomorrow's Flight" for [iOS](#) / [Android](#) tablet for booking flight with helicopters.

Software Development of a Mail Sender in C#.NET of a lot of emails.

Submit process of applications on Apple-store and Google Play.

Development of conversion data algorithm in VB.NET.

Development of WCF (stand-alone and in IIS) in VB.NET

Development of an app mobile (reserved for Italian Air Force) for iOS / Android / Windows Phone with access to camera and GPS, and read/write data to Web service.

Development of an intranet for Assohandicap (send email in massive mode, send SMS in massive mode).

Development with PHP and Sql Server 2005 of a web application for production monitoring for Magneti Marelli (through Cadlog).

Development with C# .NET 4.0 of an application for monitoring of expiration products for Magneti Marelli.

Development with C# .NET 4.0 of an application (window service) of data transformation for the SAP system in Magneti Marelli using SAP-RPC.

Development with C# .NET 4.0 of an application (window service) of parsing UDP datagram for OSRAM.

Development with VB.NET 4.5 of a parser library for weather data METAR and TAF and a library decodes DAFIF data for Italian Defence at ReGISCC at military base "Pratica di Mare".

Development of mobile app "Circeo 2.0" (for iPhone and Android) for the city San Felice Circeo.

Sviluppo di un sito web per Zeta-Distribution: <http://www.zetadistribution.com>.

Development of a web site for PizzaCapri: <http://www.pizzacapri.eu>.

Development with C#.NET 4.0 of a Windows Service for data-transformation for Dismon.

Development with C#.NET 4.0 of a Windows Service for data-transformation for B810.

Development with C#.NET 4.0 of a Windows Service for data-transformation for Gr Elettronica.

Development with C#.NET 4.0 of a Windows Service for data-transformation for Hemargroup.

Development of software components for the project "Sicote2" for Aster (final client is Selex-ES), front-end in Java/JSP, backend in PHP + WCF Geocoding in C#.NET 4.0.

Development of a Windows Service in C#.NET with front end ASP.NET+jQuery/Easyui on IIS for Sealink.

Customization of a GIS component with C# .NET 4.6.x with raster

graphics management of entities.
 Development with Android Studio of an Android app with NFC support.
 Development of a C++ library to connect datagrid engine Oracle Coherence.
 Basic knowledge of angular.js.
 Basic knowledge of Yii (php framework).
 Basic knowledge of LeafletJS (Gis Javascript Engine).
 Basic knowledge of Asp.Net WebApi.
 Development of the project "StepWorker" for Ge.Ba. with C#.NET 4.0 and Entity Framework+Custom control integrating Mentor Graphics Valor.
 Maintenance in Leonardo S.p.A. of the project GMM using Angular4 and Luciad Ria.
 Development with C#.NET version 4.x of a system data communication from a DB in Sql Server 2016 and a SAP system using SapRFC library version 2018 for Gefran.
 Development with C#.NET version 4.x of a web system WAMP using Interop library for Excel communication.
 Development of an app "Mozzarellapp" for [Android](#) (Java) and [iOS](#) (Swift).
 Development of the project "DeliveryPrint" for Se.Fa.(HemarGroup) with C#.NET 4.0 WPF for label print with serial scan data reader.
 Development of a Windows Service for Vimar company to interface SAP engine with SOAP-WS.
 Development of a web app ASP.NET with C# 4.0 in IIS for Bitron Company;
 Development with C/C++ 11 for Windows (with Boost 1.6 and RAI and move semantics) of an EDR (Endpoint Detection Response) data monitoring project at user and kernel level with interface to Windows Firewall, WMI engine, IPC, SQLite, ODBC, Network connections and a Lua engine with module developing with Linux CentOS and Visual Studio Code.

Professional support in NATO interoperability exercise CWIX from 2010 to 2014 in Norway/Poland as a "Specialist in software development".

 Main tasks and list of projects carried out, Chronologically

April 2003 – December 2005

K+ S.r.l.

ICT – Software house

Employee: Analyst Programmer senior - Team leader

Analysis and Development in C# language of a system of centralized management of print jobs for the "Procura di Roma".

Analysis and Development in C# of a alarm-system with analysis by UML class-diagrams of the project, composed of Windows services that communicate with each other via TCP socket.

Analysis and development of ASP.NET web portal <http://www.miaeconomia.it> (cms owner and retrieval).

Developing for Windows CE (Compaq iPAQ PDA) routine for a library of graphics and connecting TCP / IP socket to a remote server;

Experimentation applications with C# Mono on Linux Mandrake 9.2;

Development in Visual C++ 6 with a system of encoding / streaming real-time wave sound telephone using Windows Media Encoder 9 (Format SDK) package Windows Media Services for Windows 2003 Server to the Prosecutor of Rome for software system called "MITO";

Analysis and testing protocols SMIL presentation, HTML + SMIL, HTML + TIME;

Developing wrapper libraries in C++ for decrypting file format mms / cap;

Analysis and development of a communication system in streaming audio (VOIP with proprietary protocol) on Windows XP Embedded SP1 on SBC (Single Board Computer) in Visual C++ with central control

<p>Date (from - to) Firm Name Firm type Job type</p>	<p>developed in C#.NET (MySQL db) using protocols network TCP and UDP unicast and multicast, the core of the system is fully developed in C++.</p> <p>March 2002 – March 2003</p> <p>KS S.p.A.</p> <p>ICT – Software house</p>

application and stand-language C.
Project-Leader for the redesigning and maintenance of the site
<http://www.guidagenitori.it>.
Project-Leader for the redesign and maintenance of the site on
<http://www.energywatch.it> Bea WebLogic 5.1.
Project Leader for the analysis and development of the site
<http://www.dirkvogel.com> (both CMS that retrieval) made entirely in
PHP 4 with the adoption of programming objects and the session on
Linux platform (DB MySQL) ;
Coordination (as Project-Leader) of a development team of 5 persons
of a draft ASP (VBScript) administration and navigation of web site
<http://www.farminustria.it>.
May 1997 / April 2000
ITP Elettronica S.r.l.
ICT – Software house
Employee: Analyst Programmer - Win32 Specialist
Formation of new technical resources within the company.
Implementation of thread synchronization.
Developing tooltip for each object Windows.
Strong experience using Win32Api.
Menu and listbox completely owner-draw with Tooltip procedures
"HOOK."
Collaboration with University professor Umberto Nanni algorithms for
searching "paths minimum" of a graph.
Development of applications in Java using the set of classes Swing,
procedures for handling images, implementation of multi java
programming, socket connection to a server written in C, matrix
manipulation of images in 24-bit data compression;
CGI Programming in C;
Analysis and development of components DCOM;
Linux RedHat 6.1: installation and configuration of the operating
system, editors, "there", shell programming, programming in C / C + +,
Makefiles, socket programming, multithread programming, Motif
programming, Shell programming, GRASP, and rebuild the kernel
optimization, Kdevelop;
Installation and configuration of SAMBA to allow Linux to share
resources in a Windows network, this software package was installed
and configured on HP-UX machines.
Installation and configuration of RDBMS Oracle 8.0.5 for Linux.
Development of visual effects developed in C.
Development and expansion of the client-server program "Dynamic
Archive" with remote access to the RDBMS Sql-Server version 6.5 fully
developed in Visual C++ using the MFC.
Administrator RDBMS Sql-server for the client "Lazio Region."
Developing client-server applications with Visual Basic 5.0.
Development of a OCX component for the acquisition of images with
scanners using the TWAIN interface.
Teacher in a stand of the Forum PA 98 held at the Fiera di Roma.
Development of a multi-library in ANSI C for the Windows platforms-
UNIX implementations ODBC and DAO (for Windows).
The library mentioned above enables the development of TERRAPACK:
Cartographic multiplatform software.
Analysis and application development for the Control Panel in
Windows.
Role in Development Program SkyWork "to control the trajectory of the
Sky ground missile of Italian Air Force through 4 cameras IR IRRIS-
256ST, the program has been developed on the Sun UNIX machines
with Solaris operating system and the development environment was
Sun WorkShop 4.0.
Analysis and development environments 3D with the library OpenGL
on Windows NT platforms-Unix.
Analysis of library Microsoft DirectX 5.0: in particular DirectDraw,
DirectSound and Direct3D.
Administrator multiuser system development allowed by the software
Microsoft Visual SourceSafe 5.0 (software package that allows you to
develop simultaneously on the same source code).

<p>Date (from - to)</p> <p>Firm Name</p> <p>Firm type</p> <p>Job type</p> <p>Main tasks and list of projects carried out, Chronologically</p>	<p>Analysis and development of internal procedures with the environment using Borland Delphi 3.0 and Borland C++ Builder 1.0.</p> <p>Analysis and development of an ActiveX (OLE Server-OCX) with the MFC Visual C++ 5.0, for interfacing to other products that communicate via TCP / IP with the environment TERRAPACK.</p> <p>Analysis and development of procedures for installing and uninstalling the environment using Visual Basic 5.0 Enterprise Edition.</p> <p>April 1995 / May 1997</p> <p>Infobyte S.p.A.</p> <p>ICT – Software house</p> <p>Employee: Media Analyst Programmer</p> <p>Development of multimedia software for Windows 3.x with a careful drafting of the code for later porting to Windows 95; these projects were developed entirely in Visual C++ 1.5.</p> <p>Strong experience using Win32Api.</p> <p>Analysis and development of routine from C interface for Windows for multiple database formats (plus dBase III, dBase IV, Clipper 5.x, FoxPro) using libraries CodeBase 5.10 of Sequiter Software Inc..</p> <p>Analysis and development of graphics functions in the Windows GDI.</p> <p>Analysis and development of dynamic link libraries (DLL) for multiple functions, created in a way to interface to the Visual Basic 3.0 and 4.0 for Microsoft Windows.</p> <p>Analysis and development procedures in the following areas: ACCESS, EXCEL Microsoft.</p> <p>Analysis and development of procedures for installing software for Windows.</p> <p>Role in the team software development "in Rome Cinema."</p> <p>"Main Programmer" in the team analysis and software development "Planet ENEL.</p> <p>Creating multimedia software into Windows 95 through the development environment Microsoft Developer Studio (Visual C++ 4.2).</p> <p>Analysis and development of routine from C interface for Windows 95 multiple database formats (plus dBase III, dBase IV, Clipper 5.x, FoxPro) using libraries in 32 bits CodeBase 6 of Sequiter Software Inc..</p> <p>Role in the foreground in the team analysis and software development " Geographic Hyper-map - A holiday for Europe" program consists of a series of 18 CDs about 18 European nations.</p> <p>Implementation in software for WINDOWS 95 of technique MULTI-THREADING.</p> <p>Techniques OWNER - DRAWING and SUBCLASSING of the typical objects of the Windows operating system both at 16 and 32 bits (for example, menus, listbox, buttons).</p> <p>Analysis and Development, where was required, written procedures with the ASSEMBLER online.</p> <p>Accomplishing Screen Saver for Windows.</p> <p>Accomplishing Package, Java applets and applications with Visual J++ 1.1, symantec cafe is 1.51, symantec visual cafe '2.</p> <p>Analysis and development of servers and clients that communicate through the transmission protocol TCP / IP using the Java language development environment Visual J++ 1.1.</p>

OTHER PROFESSIONAL EXPERIENCE

December 1998-December 2000: Technical assistance and advice as professor of computer science courses for students and teachers of the Institute "Nazareth" in Rome.

In 1992, development activity for the "Giap Informatica", some modules of the program "Lotto vincente visual" entirely developed in Visual Basic with interfacing to DLL written in C with the Visual C++.

Analysis and Development for "Elisir Games" of some games (crossword puzzles and interactive) fully developed in Visual C++ 6.0 with MFC and DirectX8, particularly DirectDraw and DirectSound.

Analysis and development of a monitoring system on the serial port of counting counters video for "Elisir Games" entirely developed in C++ on Linux Embedded.

Acquisition and assembly amateur video with Ulead Video Studio 11; Managing a network of Windows for a dentist studio.

Analysis and development of management software developed in Clipper and Access, still used by some companies.

Teacher in "Internet programming with ASP" at the company DigiTrace of Rome.

Consultant senior programmer at the company Graphisme of Rome.

EDUCATION AND TRAINING

Met Titles
Chronologically

Study session in language of image and pedagogy at the Salesian Institute of Arcinazzo during the year 1982.

Title of merit conferred from IPA on 4 March 1985, which won a 'Scholarship for the academic year '84 /'85'.

Title "Ragioniere e Perito Commerciale" obtained in the academic year '89 /'90 at the Tecnical Istitute "Salveti" in Rome.

Title of "Programmer on Personal Computers in Basic and Cobol" obtained in year '90 /'91 at the "Opera Massaruti" in Rome with final vote "Excellent".

Qualification title "Esperto contabile fiscale e tributario su Personal Computers" obtained in the academic year '92 /'93 at the Training Center in Rome.

Title "UML Foundation Training" obtained at the ObjectWay University.

Title "OOADU (Object Oriented Analysis and Design with UML)" obtained at the ObjectWay University.

Visual C/C++, Visual studio 4.0-2017; PhpEd, C++ Builder, Netbeans, Eclipse, Kdevelop, IIS, Apache, Tomcat, Bea Weblogic 8.1, Drupal, Source-safe, CVS, Git, Smarty (PHP), Xcode, Android Studio. SQL Server, Oracle, MySQL, Postgres, SQLite, Access. Windows, Windows Embedded, Linux, Solaris, HP-UX, Mac OSX

HOBBIES and OTHER INFORMATION

During the period of military service I was advisory manager of new recruits, emphasizing skills of administration and accountability; talents that have been confirmed in other professional environments.

In my profession I am dedicated and passionate about new technologies and new development environments; in fact, I continue to study technology even outside work hours, so as to be updated on the progress of information technology.

I adopt quality for writing code: I comment almost every line of source code and adopt a notation inspired to the Hungarian.

My hobbies are eclectic activities: from 1990 to 2007 I carried out animation/education (voluntary) for children and adolescents (8-13 years old) with which I organized real musical theatre performances in which I was director.

I am "Theatre director" for theatrical performances of some schools of dance. From 1997 to 2014 I directed in major theatres in Rome such as "Gerini", "Vittoria", "Nazionale", "Brancaccio", "Orione", "Jovinelli", "Olimpico".

From 2007 I study and practice the art of photography as an amateur.

Suffering from a mild form of asthma, the intolerance is only against smoking.

ASPIRATIONS

Growing professionally and being always up to date.

The favourite type of development is multimedia and "low level".

The motto: "what you know isn't important, it's what you can do that matters".
